Non MIDAS subscribers: Cost on application

Course overview

SIMS Discover helps you drill down into your data so you can monitor at risk groups, assess
intervention strategies and see the whole picture of your school.
Learn how you can use it to its full potential.

Learning outcomes
- Familiarise yourself with the discover interface
- Learn how to create your own graphs and filter them
- Learn how to set up discover groups for use in SIMS
- Learn how to use the configuration utility
